

For making at any moment pure and rich Lemonade of excellent flavor, not distinguishable from that made with the fresh fruit.

PRESTON'S  
PORTABLE LEMONADE,  
OR SUGAR OF LEMONS.

THIS IS manufactured from the finest steam loaf sugar and purified lemon juice and will retain its freshness in any climate, without contracting the ungrateful, musty flavor, so prevalent in the Lemon Syrups.  
It furnishes to families, to the sick and to travelers by land or sea the means of enjoying all tall seasons a drink at once refreshing, delicious and healthful, while its extreme compactness admirably adapts it for transportation.
